[LinkedIn](#)

[GitHub](#)

Passionate fullstack web developer skilled in ReactJS, TypeScript, NodeJS and PostgreSQL to build all aspects of the user experience. Specializes in using ReactJS and NodeJS to build single page application sites.

TECHNICAL SKILLS

Front-end: TypeScript, ReactJS, Bootstrap
Back-end: NodeJS
Other: PostgreSQL, GitHub, use of APIs

PROJECTS

Take a look at all my updated Front-end, Back-End and FullStack projects in [Github](#). Some examples:

[Preço Campeão](#)

In this CRUD application you can create, update and delete markets, products and associate products in sale to a market.
The user can see all the sales and browse through it sorted by the lowest price.
Technologies:
- ReactJS and TypeScript for the Client side;
- NodeJS for the Server side;
- PostgreSQL for Database.

[RollerCalc](#)

In this application you can calculate your earnings in the game RollerCoin, then you can convert it to your currency.
Technologies:
- ReactJS and TypeScript

SOFT SKILLS

- Good teamwork skills focusing in solving problems;
- Good self time management using agile and pomodoro techniques;
- Scrum and Agile knowledge.
